Topics Discussed:

Today was the first meeting after midterms so we had to discuss pretty much the whole remaining workflow. Firstly we distributed the assignments for the diagrams, a task that needs to be finished by next week. The assignment was done as follows:
Ernit Hoxha & Bojken Sina: Activity Diagrams, Sequence Diagrams, Data Flow Diagrams
Klesti & Deni: Class Diagrams, Object Diagrams, DB Schema Diagrams, ER Diagrams, State Diagrams, Collaboration Diagrams, Component Diagrams, Deployment Diagrams
Deni Daja & Klesti Kuka : Final Editing
After discussing about the diagrams, we also discussed about the programming part. Deni and Klesti will start immediately coding for the web application and mobile application, while Bojken and Ernit will together go through our code and when ready, contribute to the pages assigned to them, more specifically Settings page and Employee page on the web application.
On the next meeting after 2 days, we plan on going through all the diagrams together.
